IUT OPPORTUNITY HUB

SWE 4304: Software Project Lab I

Group 16

Farnaz Rahman Maliha	240042117
Tasnova Tahia	240042138
Tasnita Raida	240042113

INTRODUCTION

- A centralized platform for the IUT community
- Aims to make academic and professional opportunities easier to discover.
- Helps faculty and alumni find students for research projects.
- Connects students, alumni, and faculty for collaboration and guidance.

MOTIVATION

THE BEGINNING:
A PERSONAL CHALLENGE

- Wanted to start research but didn't know how.
- Research opportunities were limited.
- Struggled to connect with seniors and teammates.

THE REALIZATION:
AN OPPORTUNITY TO CONNECT THE IUT COMMUNITY

- Many IUT students face similar challenges.
- Talented students, experienced alumni, and research-oriented faculty lack a common platform to connect.
- No easy way to bring them together.

PROBLEM STATEMENT

The Existing Gap

IUT students face difficulties finding relevant opportunities, research collaborators, mentors, and experienced seniors or alumni because connections and information are scattered across informal networks and separate communication channels.

Create a need for

IUT Opportunity Hub

A centralized platform for discovering opportunities, finding research collaborators, connecting with mentors, and building academic and professional relationships within the IUT community.

TARGET STAKEHOLDERS

STUDENTS

Search jobs,internships and assistanships.

Discover,research projects and supervisors

Request mentorship or project participation

Track application and request status

A clearer path to academic and career growth

ALUMNI

Share academic and professional experience

Guide students interested in their fields.

Publish job and higher study opportunities

Meaningful connections and a lasting impact on future graduates.

FACULTY

Discover potential research collaborators

Recieve and manage requests

Update supervision availability

Less time searching for suitable students ,less time for research and supervision

KEY FEATURES

01. OPPORTUNITY MANAGEMENT

- browse
- search, filter
- apply
- Track and manage

02.Alumni & Mentorship

- Search alumni
- View Profile
- Send connection,mentorship requests,response

03.Research Collaboration

- Publish
- browse by domain
- request participation

04.Recommendation System

- Rank relevant opportunities and mentors using profile skills .academic background,previous projects and experience
